DETAILED ACTION

Claims 18, 19, 21, 22, 24 and 29-36 are currently pending in the instant application, appear allowable over the prior art of record and have been renumbered as claims 1-13.

Response to Amendment

Applicants' amendment filed 10 March 2006 has overcome the 35 USC 112 1st paragraph rejections and the 35 USC 112 2nd paragraph rejection of the claims.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
It was not executed in accordance with either 37 CFR 1.66 or 1.68.

Specifically, Qingwu Jin failed to provide a date with the signature and is therefore not properly executed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance. This invention relates to methods of preparation of the compounds of the formula (I). The novel and nonobvious aspect of this invention involves the substituent on position 3 of the pyrrole ring. The closest prior art of record, WO 2001060814, which discloses compounds which differ on position 3 of the pyrrole ring, fails to teach or suggest applicants' instantly claimed methods of preparation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
